POINT-OF-SALE SUPPORT

An integrated swatch of the *Signum* Blockout range is available to manufacturers in quantity for their own use or for distribution to their retail customer base. This swatch includes all colours within the *Signum* Blockout range.

FABRICATION REQUIREMENTS

There are no special considerations for fabricators when using *Signum* Blockout, except that good quality cutting techniques should be used. It is recommended that *Signum* Blockout is cut using either crush cutting or ultrasonic cutting machinery. Of course, the performance of the fabric will ultimately be determined by the ability of the hardware system to adequately support the fabric with minimum bending and general deformation of the roller tube, especially in wide width installations.

CUT-TO-LENGTH SERVICE

Signum Blockout is available in cut lengths at a surcharge of \$10.00 per cut. Cut lengths are generally despatched within two working days of order and are available for shipment to all parts of Australia.

KEY SELLING FEATURES

Signum Blockout range has several features that provide competitive advantage over other screen fabric ranges sold in Australia. In particular:

- Contemporary range of colours;
- roll width 240cm and 300cm as above table;
- FR rating tested to AS1530 Pt2 and Pt3;
- 5-year manufacturer's warranty.

PRODUCT WARRANTY

Signum Blockout is provided with a five-year manufacturer's warranty, supported directly by Copaco and including for internal blind applications, except when used not in accordance with the manufacturers specifications and when used in tension systems.
